Qs 11-15: Choose one word or phrase that best completes the context.

The government urged people who are planning to work in Southeast Asia to exercise extra 11, as Taiwanese jobseekers were reportedly abused and coerced into engaging in fraudulent activities in Cambodia. Promises of free round-trip tickets, favorable treatment and a salary of more than NT\$100,000 per month had Taiwanese 12 the employment scam. As fraud rings excel 13 enticing people by promising them benefits that they will never see, anyone could have been targeted, 14 nationality or background. As for deterrence measures, it is high time for Taiwan to impose stricter laws and harsher punishments for scammers and their accomplices. Most scammers convicted in Taiwan receive jail sentences of less than a year, while money mules typically receive less than four months in prison, and the 15 rate is high.

Qs 16-20: Answer the questions on the basis of the following paragraph.

Pickpockets operate most effectively when there are prospective victims in either heavily congested areas or in lonely places. In heavily populated areas, the large number of people around them covers the activities of these thieves. In lonely spots, they have the advantage of working unobserved. The main factor in the pickpocket's success is the selection of the *right* victim. A pickpocket's victim must, at the time of the crime, be inattentive, distracted, or unconscious. If any of these conditions exist, and if the pickpocket is skilled in his operations, the stage is set for a successful larceny. With the coming of big events, such as large concerts or marketing campaigns, the crowds move towards these activities and so do most of the pickpockets. However, some pickpockets will remain in certain areas all year around. They will concentrate on theater districts, bus and railroad terminals, hotels, or large shopping centers. A complete knowledge of the methods of this type of criminal and the ability to recognize them come only from long years of experience in performing patient surveillance and trailing of them. This knowledge is essential for the effective control and apprehension of this type of thief.

16. According to the above paragraph, the pickpocket is LEAST likely to operate in a
- (A) baseball park with a full capacity attendance
 - (B) subway station in a remote area late at night
 - (C) moderately populated dance hall
 - (D) over-crowded department store
17. According to the above paragraph, one of the following factors which is NOT necessary for the successful operation of the pickpocket is
- (A) his proficiency in the operations required to pickpockets
 - (B) that the *right* potential victims be those who have been the subject of such a theft previously
 - (C) that his operations be hidden from the view of others
 - (D) that the potential victim be unaware of the actions of the pickpocket

18. According to the above paragraph, it would be MOST correct to conclude that police officers who are successful in apprehending pickpockets
- (A) are generally those who have had lengthy experience in recognizing all types of criminals.
 - (B) must, by intuition, be able to recognize potential *right* victims.
 - (C) must be able to predict the future actions of pickpockets using psychic abilities.
 - (D) must have acquired specific knowledge and skills in this field.
